

Specification:

SIZE : 3/8" Diameter X 1 1/4" Length

GAP : 3/4" - 1 1/2"

#22 AWG, 18" standard leads (long leads available)

Crush Resistant and Sensitive

Products uses a sensitive long leaded - no stick Rhodium reed to attract the magnetic field. This is protected by a crush resistant button that keeps the thin outer housing from caving in. This unique button also ensures the 22 AWG wire always comes out of the center of the contact.
